

LUXURY YACHT CHARTER

CREW PROFILE

S/Y CORSARIO

IT IS ALL ABOUT PEOPLE

JURE RESTOVIĆ

Captain

Our amazing captain Jure comes from little fishing & shipbuilding village **Milna** on **island Brač**. His dad was a craftsman, shipbuilder and sailor, so he grew up near the boats and learned the same skills.

He worked on a small ship cruisers, big overseas cargo ships, then again as a sailor on yachts and finally as a captain, what was his lifelong dream. This will be his **25th year** working on the sea.

Jure is a big fan of fishing and being on the sea, so don't be surprised when he takes you to the **most mesmerizing bays & coves** and catches fresh fish, **octopus** or calamari for you. He is also a very passionate craftsman and a guy who can just fix anything. However, on top of all that he is simply an **awesome human being** - guests adore him and crew even more. He will show you how to truly indulge into everything that the Adriatic sea has to offer while on Corsario

LUKA VULIĆ

Chef

It is very common that guests get super surprised with levels of the food that we serve on Corsario and it is Luka's "fault". This **incredibly talented chef**, comes from small little coastal town - Omiš, where also our S/Y Corsario has roots from.

Luka had years of international experience at the very beginning of his career, after what he came back to Croatia and worked as a head chef in some of the best fine dining restaurants of island Hvar and town of Split. After years of restaurant experience, he became a chef in newly built exclusive hotel in his home town, where he stayed for 2 years.

Finally, he came to work on Corsario and this will be his **6th year** serving some of the finest dishes you can have along your journey over Adriatic coast. In October 2024, Luka won prestigious award - 2nd place at **CROYA Chef's Competition**, among many other chefs.

We are so happy to have him as one of our leaders among the crew.

DARIO TOPIĆ

Chief steward & barman

When you go through Corsario feedback in our book of impressions, Dario might be name that repeats the most, along with Jure and Luka. His **warm personality** and **attention to details** are great, but what really makes him perfect for this job is his humor and witty jokes that will draw a smile on your face even you don't expect it.

Dario has outstanding knowledge of Croatian wines and wines in general, admirable cocktail making skills and always has tons of ideas for organizing a theme nights if guests want that.

His **extensive working experience** in 5 star hotels and some fine dining restaurants gave him not just great skills and mentality, but also lots of contacts, so in case you need recommendation for restaurants and bars, he is the guy to ask.

In 2024 he won prestigious award - **1st place at Designer Water Competiton** at first CROYA event among many other yachts. His skills outshined the rest.

We are so proud to have him **6th year** in a row on board.

IVANA BRALIĆ

Sous chef

Ivana is our new addition to the crew for 2025! She was with us for a few charters in 2024 as a sous chef and we loved having her around.

Besides being Luka's great friend and former co-worker, Ivana is known as one of the **best pastry chefs in Croatia**. With lots of international experience, years of education and great references, with her our galley will be producing even more **extraordinary dishes** (if that is even possible).

Ivana, like Luka, can work anywhere she wants. But she chose Corsario because of our values, working atmosphere and ambitions. And we chose her for the same.

Last but not the least, **crew love her** as well. Her warm personality, always with a smile and never complaining won hearts of our guests and the crew.

TONĆI ZULIN

Boşun

Tonći was born on the 1st of January, 1989, what allows him to always have a double party on NYE. He was born on island Hvar, and he is really proud of it.

He is known among the crew as a guy with **thousand jokes and funny observations** with great common knowledge about sports, history, islands, culture and anything connected to the sea & boats. So if you need someone to have a bit **deeper conversation**, spiced up with sarcastic jokes, find Tonći. Tonći will take care of cleanliness on the deck, navigational operations, water toys and transfers to wherever you need to go with a dinghy.

He loves the sea and was born near it, so his occupation is not surprising. During winter time he sails on **big explorer ships** over the ocean. Currently, he undergoes studies to have the highest qualifications. In the meantime, he loves working on Corsario, because of the people but also because he finds her as a real beauty of a **unique design**. This is his **4th year** on board.

MARIN BREKALO

Deckhand

Marin is the **youngest member** on board. This is his 3rd year sailing and 2nd on Corsario.

Crew love him because he is **humble** and respects the “older” crew. His job is on the deck - from water toys, navigational operations to taking care of cleanliness of the exterior part. However, if anyone needs any help - in the galley, in the service department, or anywhere - he is **there to help**.

He loves working with captain Jure for many reasons - he wants to learn from him and he loves Jure’s style.

Marin fell in love with the sea and he sees his career only on boats. One day he hopes to become captain, but in the meantime he knows he still has a lot to learn.

His **warm personality** fits well on the Corsario. He is indeed a young prospect of the team.

NENSI KROLO

Stewardess

The **warmest smile** on Corsario, even though competition is hard, belongs to Nensi. Nensi has been in the company for 4 years and this is her 2nd season on Corsario.

Nensi has knowledge to work in a bar and on the deck, but she loves the **housekeeping** the most. She takes care of the cabins, laundry and interior in general and she keeps it in an impeccable state.

Nensi loves dancing, music and hanging out with friends. She loves **extreme sports** and currently she trains climbing. She hates conflict and always sees the world through the pink sunglasses.

She adores Corsario mostly because of the **people that work on board**. Everybody hangs out even in off season time what makes summer season much easier.
